

**HEATING AND COOLING**

# AQUA-HOT 250

## Features

Fueled by propane or diesel and operated by 12V for off grid applications.

Available with a 220 electric element.

The all-in-one design of the Aqua-Hot series results in considerable cost and space savings.

Single, self-contained unit: Delivers residential-style interior heating using heat exchangers and/or in floor heat with the ability to deliver a luxurious supply of continuous hot water at 43°- 49°C at 6 L/h at a rate of 6 liters per minute. It's just like the luxury comfort in a traditional home or high-end motorhome.

Quiet: Low voltage fans provide an almost completely noise free operation.

Fast Installs: Heating, domestic water, and fuel supply/outlet ports are located on top of the tank for easy connection access. Integrated mounting tray facilitates air intake and exhaust.

Easy Operation: Heat controlled by your thermostat and endless hot water by simply turning on a faucet.

## Specifications

Maximum Interior Heat Exchanger kW 11,7

Continuous, Tank-less Hot Water of 43°- 49°C at 6 L/h

5 Aqua Hot Cozy Heat Exchangers

Fuel Propane

Electric Element - Yes

Size 29,7 x 31,6 x 54,9 cm

Weight 38 Kg (empty) 51,5 Kg (full)
