

INTRODUCING COLEMAN-MACH CLIMATE CONTROL ACCESSORIES

Coleman-Mach Climate Control Accessories are designed to expand the use and function of Coleman-Mach air conditioners and heat pumps. Now every owner of a Coleman-Mach air conditioner can enhance the comfort and enjoyment they experience with continuing benefits to equipment longevity.

Coleman-Mach Branded Replacement Air Filters

Coleman-Mach brand air filters are in frames with precision, press-fit alignment to Coleman-Mach ducted and non-ducted ceiling assemblies; 90-day use replacement suggested.

STANDARD filters

Mesh filter fabric captures large particles: lint and pollen

MERV 6 rated filters

Woven filter fabric captures irritants such as lint, household dust, pollen, dust mites, pet dander and mold spores

Easy to do, regular changes keep RV air quality up to sniff and help Coleman-Mach air conditioning and heat pumps operate efficiently.

Coleman-Mach Climate Control Assemblies For Installed Air Conditioners

Coleman-Mach Accessories Bridge+ is the integration unit that operates various Coleman-Mach climate conditioning assemblies, such as electric heating elements and air purifiers.

Easily mount accessories that operate by the air conditioner controls, such as the Air Purifier and the AirSpace heater, into the air conditioner through the return air opening after removing the ceiling assembly.

Coleman-Mach AIR PURIFIER

The iWave-M is a compact ion-generating bar – the same technology being used in hospitals and schools – that emits positive and negative ions as air flows past, purifying the air without creating ozone or any harmful byproducts.

- o Certified ozone free
- o Effectively kills pathogens
- o Perfect for occupiable spaces
- o Operates with the air conditioner control
- o Kills bacteria and virus spores
- o Kills airborne mold
- o Prevents odors (cooking, Pets, VOCs)
- o Reduces static electricity
- o Removes pet and cooking odors
- o Controls allergens
- o Keeps air conditioner coil cleaner

Coleman-Mach AIRSPACE HEATER

The AirSpace Heater electric element heating tube has pitched fins that move air across more surface area to increase heat transfer.

- o Quickly offsets room chill without the furnace
- o Saves propane when shore power is available
- o Adds warmth quickly and evenly
- o Operates quietly. Out of sight.

The Air Purifier Assembly

The Air Purifier features the Accessories Bridge+ the iWave brand ion-emitting generator, the bar and the fasteners.

The AirSpace Heater Assembly

Pitched fins on the heating element tube create more surface area that increases heat transfer

The AirSpace Heater features the Accessories Bridge+ the electric tubular sheath heating element and the fasteners

CLIMATE CONTROL ACCESSORIES

AIR FILTERS	
9430-3441	Set of two MERV6 rated air filters for non-ducted ceiling assemblies
8430-3801	Set of two MERV6 rated air filters for ducted ceiling assemblies
9430-3092	Set of two Standard mesh air filters for non-ducted ceiling assemblies
8430-3692	Set of two Standard mesh air filters for ducted ceiling assemblies
AIR PURIFIERS	
Accessories Bridge+ iWave-M Ion Generator	
47233-4601	iWave-M Air purification system for low profile (Mach 8)
48203-4601	iWave-M Air purification system for medium profile (Mach 3, Mach 10, and Mach 15)
AIRSPACE HEATER	
Accessories Bridge+ Electric Heating Element	
9233A4552	Electric Heating Element for low profile (Mach 8)
47233-4552	Electric Heating Element for medium profile (Mach 3, Mach 10, and Mach 15)
